Subject: RE: Get-back on USACE congressional response process

Not yet, next step would be for program or possibly Lynn to talk with USACE.

Yep. Works for me. Has Corps agreed with this approach? If not yet, pls let them know this is how we want to handle and make sure not to surprise them.

Subject: Get-back on USACE congressional response process

Karl,

Per the meeting last week, here is OPA's proposal for USACE responding to congressional inquiries involving the WLL.

1. We support the direct contact between Congressional offices and USACE.
2. R7 SUPR will notify USACE personnel that they should respond directly to Congressional inquiries in accordance with their internal protocols.
3. R7 SUPR will request that USACE keep us informed of inquiries and responses provided.
4. Following completion of steps 2 and 3, OPA will notify Congressional offices that they may contact USACE directly regarding work performed under the IAGs signed for the West Lake Landfill site.
